and zest for life.**

**There is a difference between growing old and quality of life—it's found in the ability to tap the amazing revitalizing powers of the body.**

Younger? Really? No doubt you're skeptical. We've all been around long enough to know that time marches in just one direction, and only a fool would suggest otherwise.

True enough, but it's not the whole truth. While chronological aging can't be slowed or reversed, biological aging is another story. Depending on your actions and attitudes, you can accelerate your physical deterioration—or slow it to the point where your biological age is actually younger than your age in years.

**“The overall deterioration of the body that comes with growing old is not inevitable.”**

## Nourish your body's vital cells with PROhGH.<sup>®</sup>

With biological aging comes your body's decreased ability to produce the unique *special messengers* needed to maintain libido, energy, tight skin and fight excess body fat.

But there's hope. Human Growth Hormone (HGH), is the *master hormone* that is produced in abundance throughout your entire life—the problem is, the secretion pattern diminishes as you age. HGH is your body's vital cell reviver! One of the key secrets to forestalling the signs and symptoms of biological aging lies in nourishing your body's vital cells.

Most people reach their physiological peak, or best years in their middle to late 20s. They then ride this plateau through the next decade of life. But between the ages of 40 and 50, the average American man ages **over 15 years**, and the average woman ages **nearly 19 years** in biological terms.

## Here's what people are saying...

"Thank you PROhGH® for making such a difference in my life! I have been taking the product for four months. Not only have I lost 22 pounds, but I feel like I'm 29 again."

—BENJAMIN, AGE 40

"My husband has been taking PROhGH® for six months. You can't believe the difference PROhGH® has made in our life. He got his sex drive back, has more energy and stamina and even goes to the gym three times a week."

—PATRICIA, AGE 44

"I've been on the program for 90 days now. My hair and nails are growing again. Their luster has been restored. It is amazing. My hairdresser is dying to know my secret."

—MARGARET, AGE 50

"I'm doing the bossa nova with my new Casanova! Thank you, PROhGH®, for giving me my life back."

—RACHEL, AGE 57

## How does PROhGH® work?

PROhGH® is a delicious citrus-flavored beverage—  
Just drop two tablets in water and watch it dissolve!

Clinical data presented at medical conferences in the USA, Europe and South America suggest that this all-natural pharmafood may increase the release of HGH to more *youthful levels*. Physicians use and recommend PROhGH®—  
in fact, over 20 million servings have been taken.
